

Better utilize your equipment ready-line and down-line with

CAT[®] Rental Ready to Rent Equipment Tags

Constructed of high quality, weatherproof (TYVEK) non-tear material

Metal reinforced hole and attached wire for ease of use

FRONT

BACK

Fill-in areas to record critical information

4 Color 4" x 8" tag with perforated tear-off strips

This service tag will help you develop and maintain a structured approach in designating the availability of your equipment on your yard. Cat Rental Store personnel will be able to simply view the three-colored tag from a distance to determine whether the equipment is "ready to rent" (green), "needs to be checked out" (yellow), or "should not use" (red).

These tags have become the standard with most rental stores. Due to the common layout of the tags, they have mass-produced to keep down printing cost.

Order Today! In stock and ready for immediate shipment. Use the order form on next page.
